**Charge to the Residency White Paper Committee:**

Develop a white paper to address the role of schools and
colleges in developing and administering residency programs. Specifically the paper should address:

Explore the postgraduate medical training model that involves schools holding the accreditation for a program and schools then approving the specific training sites. Such a model is already possible for community pharmacy residencies; should it be applied to other types of pharmacy residency training? What are the advantages and disadvantages of such a model?

What role should colleges play in developing new residencies? Is there a national need at this time for new ones? If so, what should collegiate responsibility be? What are potential models of investment to help develop new residencies?

What needs to be done to make available maximum resources for residency training?

What role does residency training (pharmacy practice residencies, specialty residencies, or both) play in preparing future faculty? What educational experiences do we want incorporated into residency programs that prepare future faculty?

How can colleges partner with residency sites in residency research projects and encouraging some residents to seek additional training in order to assume faculty positions?

AJPE VIEWPOINTS

Three columns were submitted for publication in AJPE, the first entitled “Is There a Crisis in Scholarship?”, the second entitled “Meeting the Need for (Excellent) Pharmacists”, and the third entitled “Advancing our Pharmaceutical Care Agenda: Reaching Out.”

ELECTION RESULTS

Vic Yanchick has been elected incoming Chair-elect for the Council of Deans, Holly Mason has been elected incoming COD secretary and Tim Chan has been elected COD Administrative Board Representative.

STRATEGY SESSION FOR DEANS

Chair-elect Robert Beardsley organized a series of roundtable discussions for deans for the 2003 Annual Meeting in response to requests from members for additional organized discussion time at the meetings and a more organized approach to exchanging ideas with small groups of colleagues.

I very much appreciate the opportunity to represent the Council of Deans as Chair-elect and Chair in 2001-2002 and 2002-2003, respectively, and to serve on the Board of Directors for a three-year term. Thank you for your confidence in me. I strongly encourage other members to consider serving in such a capacity.
